ABOUT ME

Senior UX / Product Designer with 9+ years building products across telecom, travel, and healthcare. Currently leading enterprise UX at Publicis Sapient for a large-scale USA Telecom Contact Center platform. Previously at Rehlat, redesigning the travel search experience for 10M+ users across MENA (Star Performer Award 2022), and at Vigocare as founding designer for a remote patient monitoring SaaS. Works across the full design arc — research, flows, IA, UI systems, and handoff. Beyond client work, independently designs and ships products using Figma AI, Claude, and Gemini. Certified in Persuasive UX Strategy, IIT Delhi (2025).

CORE SKILLS

Product & Strategy: Persuasive UX Strategy · Problem Framing · Information Architecture · 0→1 Product Design · Retention & Activation · Data-Informed Decisions
Craft & Execution: Interaction Design · Visual Design · Wireframing & Prototyping · UX Writing · Usability Testing · Visual QA · A/B Testing
Systems & Handoff: Design Systems & Tokens · Component Libraries · Accessibility · Engineering Handoff · Design-to-Code · Agile Workflow
AI & Tooling: Figma · Figma AI · Adobe XD · Illustrator · Lottie · Jira · GitHub · Amplitude · Supabase · Notion · Claude · Gemini · Codex · Dall-E3

EXPERIENCE – 9 years 4 months

Publicis Sapient · Senior User Experience Designer Sep 2023 – Present
Hyderabad, India · USA Telecom Contact Center Platform

- Senior UX Designer for a **leading USA telecom client (Business division)** — leading enterprise design for the sales-ordering platform used by business sales representatives nationwide; partnering with product and engineering to translate complex PRDs and HLDs into shippable solutions.
- Shipped **BIS, BYOR, One Talk, Business Verification** and **FWA-into-Optix** — driving a strong post-launch revenue ramp and a **multi-million-dollar 5-year valuation** across the FWA & Copper Catch initiative.
- Designed the **Funnel Management for Mass** tool — delivering a **5% sales lift** from total quotes and a **multi-million-dollar 5-year outlook**; quote-to-sale targets met or exceeded for three consecutive months.
- Contributed UI design for a **digital voice + Webex integration** — supporting **multi-year vendor cost savings** — and drove a **45% reduction in agent data-processing time** through rigorous Visual QA, iterative usability testing and point-to-point ordering flow charts adopted across the team.
- Recognized with the **Publicis Sapient Partners Shoutout Award and a Client Certificate of Recognition (Dec 2024, Oct 2025)** — cited by client leadership for originality, professionalism and designs that 'make sales ordering easy peasy.'

Rehlat Online Services · Senior User Experience Designer Jul 2021 – Aug 2023
India · Travel marketplace across the MENA region

- Cross-functional design lead on the **travel-search revamp** — partnered with product and engineering to deliver a unified search and booking experience for **10M+ MENA users**.
- Drove the redesign of the **Post-Payment Experience**, achieving a **99% same-day refund rate** and contributing to a **5×increase in retention**.
- Cleaned up the booking funnel end-to-end — **+0.2% CVR, -10% booking time**, and **2× traffic** reaching the final step of the funnel.
- Launched a **new vacation category (+3% CVR, 10× surge in customer inquiries)** and a football-quiz growth campaign (**+20%traffic, 15K+ new users acquired**).
- Architected **Design System 2.0** — establishing UI consistency across the suite and accelerating design-to-engineering handoff.
- Star Performer Award 2022** for outstanding product impact and design leadership within the Design org.

- Founding designer for the **out-of-hospital Multi-Vital Monitoring platform** — designed clinician-friendly interfaces for complex medical data (**Holter ECG, multi-vitals**), establishing a UX foundation that **saved doctors 30% in administrative time** via seamless EMR integration and **reduced nursing staff monitoring time by 43%**.
- Ensured adherence to healthcare design best practices, directly contributing to the platform's **ISO 13485:2016 certification**.
- Partnered with the marketing team on the website revamp and guided **graphic-design output (banners, GIF animations, brochures) for brand and product launches**.

- Led responsive web and mobile design for major portals and landing pages (Deloitte, Welspun), focusing on usability, accessibility, and modern grid layouts.
- Designed comprehensive style guides, high-fidelity mockups, and custom iconography from the ground up.
- UI Foundation: Handled rapid screen adoption and core UI craft for multiple startup clients, accelerating product timelines through hands-on visual problem-solving.

- **TraVerve & RioMinnie Finance** (2024 – Present): Architecting end-to-end UI for an internal finance app focused on data-entry speed; directing brand and product design for an emerging travel-itinerary App.
- **Doctyn, Global Med Acadamy, DocLeaning** (2026): Designing 0→1 brand identity and clinician-centric UI concepts for a medical e-learning platform.
- **CloudHospital** (South Korea, 2022): Led the UX engagement as a consultant — simplified online-appointment flows and built a brand-driven style guide for a multi-client healthcare app.
- **Pert Smart Home** (2020) & **HereForYou** (USA, 2020–21): Audited and concepted smart-home and consumer apps, reducing Average Handle Time (AHT) and building scalable design foundations.

COMMUNITY & VOLUNTEERING

- **Design Head, Run for a Girlchild** (2017 – 2022) · Led design for a non-profit initiative focused on girls' education and empowerment — five years of voluntary creative leadership across campaigns, identity, and event collateral.
- **Volunteer Designer, Seva Bharathi** (2017 – 2021) · Designed digital solutions and helped organize community engagement events to drive social impact and outreach.
- **Dharamsala animal rescue** (2020 – 2021) · Designed posters for several key programs to achieve goals: spay/neuter, rabies vaccination, rescue and adoption, and community outreach/education for rabies safety and compassion.
